

I am a unsigned in user and I want to be able to browse the forum so that I can see what this site as to offer before I decide if I want to sign up.

I am a signed-in user (non moderator and non administrator) and I want to be able to do what the unsigned user wants to do and be able to post to the forum and be able to view and list in the classifieds. Additionally, I want to be able to edit/delete my content. So that I can participate in topics and sell items that I have.

I am a moderator and I want to be able to have all the permissions of signed in user as well as be able to modify/ delete the content of signed-in users so that I can help make sure that the site runs as

expected.

I am a administrator and I want to be able
be able to have complete abilities to
modify all content so that I can make the
site what I want it to be.
